Device
- Supported USB version, Device version,
- Max packet size of control endpoint,
- Product & Vendor IDs,
- Manufacturer, Product name, Serial number
- Device class (USB CDC),

Configuration
- Number of interfaces,
- Device power requirements,
- Configuration identification.

Communication Interface
- Interface class (CDC communications),
- Subclass (Ethernet Control Model),
- No Interface protocol,
- Number of endpoints (One).

Data Interface
- Interface class (CDC Data)
- No subclass and protocol,
- Number of endpoints (Two).

Header Functional
- Supported CDC version (1.1).

Data OUT Endpoint
- Bulk OUT endpoint,
- Max packet size (512 bytes)

Union Functional
- Union of interfaces,
- Master interface and
  Subordinate interface numbers.

Data IN Endpoint
- Bulk IN endpoint.
- Max packet size (512 bytes).

Ethernet Networking Functional
- MAC ID index,
- Supported Ethernet statistics,
- Maximum Segment (Frame) size,
- Number of Multicast filters,
- Number of Power filters (for Wake-up)

Notification Endpoint
- Interrupt IN endpoint,
- Polling interval (255)
- Max packet size (64 bytes)
